**HOW AND
WHERE**
CAN YOU USE YOUR
CERTIFICATION MARKS?

Your certification demonstrates the conformity of your management systems to relevant standards: it does not certify attributes of a specific product or service. For this reason, you must take care in your use of certification marks, never use a mark, or reference to your certification in a misleading way that suggests product or service certification or would imply that the certification applies to activities and sites that are outside the scope of certification.

WHAT INFORMATION IS SHOWN?

The certification mark is adapted to show the standard to which you are certified (i.e. ISO 9001, ISO 14001). This is the ONLY part of the certification mark which is modifiable. The certification mark can be used with or without reference to your certificate number (i.e. the number that appears on your Bureau Veritas certificate that uniquely references your organization).

FOR A SINGLE CERTIFICATION

FOR A MULTIPLE CERTIFICATION

Note: Certificate marks are available in four formats: jpeg, EPS and Illustrator.

DIGITAL COMMUNICATION

DO'S AND DON'TS

DIGITAL COMMUNICATION PRESENTS ITS OWN SET OF CHALLENGES. WE PROVIDE ADDITIONAL RULES AND GUIDELINES TO HELP YOU GET IT RIGHT

DIMENSIONS

SIZE

The minimum height of the logo is 12 mm.

PROTECTION ZONE

To maintain the visual integrity of the logo, a minimum space (protection zone) equivalent to 50% of the height of the red block in the logo (h) must be respected.

USING THE CERTIFICATION MARK ON YOUR WEBSITE

Remember: your certification mark covers your management system, not your products. You may show a certification mark on a website page that shows a product manufactured at a certified site, however you may be required to add a product statement. For web pages showing multiple products, you must take care that ALL products shown on the page are manufactured by sites within your certified management system.

Responsive websites rearrange content on a page to aid readability. You must ensure that the responsive version of your website:

- ✓ Does not separate the logo from the product statement
- ✗ Ensures the certification mark retains its minimum height

Recommended size: on your website (desktop version) we recommend that the certification mark be 200 pixels wide (maximum 250 pixels).

REFERENCING YOUR BUREAU VERITAS CERTIFICATION ON SOCIAL MEDIA

Social media posts often need to be short – but you still need to avoid being misleading. When talking about your certification from Bureau Veritas, you must always refer to the specific management system standard and be precise:

- ✓ Our environmental management system is certified to ISO 14001 by Bureau Veritas
- ✗ Bureau Veritas has given our products the green stamp of approval!
